

This little guys name is Admiral and he was found all alone, out in the cold and starving. He was in Texas and is now hoping to hop on a transport to Colorado to find his furever home. He will be here December 18th, just in time to bring lots of Joy and Love to any home. We don't know too much about him yet, except that he is a super cute little guy in need of a nice warm home. He is about 10 lbs, so won't take up too much room. He has a little holiday wish list; a warm bed, couple of toys and lots of love. All these little guys need are a chance; a chance at a home and a chance at love. They do give back! Some take more time than others, but they all give back. If you would like to meet The Admiral please fill out an application at
