

Biscuit is an 11# 5 y/o PomChi whose time was running out at an overcrowded shelter in TX. Biscuit doesn't understand why her people didn't come looking for her. She was confused and scared but grateful that Rescue saved her and brought her to CO to find a family who will go to the ends of the earth to find her if she ever went missing. Biscuit will adjust quickly to her new family with some love and patience. She likes other dogs but probably wouldn't appreciate an overly rambunctious puppy or dog or child for that matter. She'd like walkies and someone who will teach her fun things and take her places with them. if interested in meeting Biscuit, please complete our application at

<https://www.lowridersofthewest.org>

Biscuit's adoption fee is \$325.00 - We require the application, home and reference check and meet and greet with current pets and/or children in the home. Biscuit will be spayed, utd on vaccs and chipped prior to adoption. She is negative for heartworm and the nasty tick diseases.
