

Kate is a super sweet Jack-Rat terrier mix who was shutting down in a very crowded Amarillo shelter and then ran out of time. This sweet girl was petrified and just sat in the corner and shook in fear. Now that she's out and getting love from the volunteers, she's a whole different dog. She's still a little shy but approaches for pets and love. Kate loves to snuggle and is so grateful that she was saved. Kate is dog and cat friendly and probably would do better with kids older than 12 since she's a little shy still. If interested in meeting Kate, please complete our application at
