

These two cute little chihuahuas are Noodle, a 12 year old female, and Bitty, a 10 year old male. They have been together for 10 years. Both have had their teeth cleaned or extracted, and both have very few teeth left, so any future dental care will be minimal. Both have been spayed and neutered. Their owner passed away and the family couldn't take them. Noodle and Bitty are both healthy and have a few good years left to live, since chihuahuas often live to 16 + years. They love to go for quiet walks and love to sit by you. They are quiet and well behaved in the house and are housetrained. They are not wild about other dogs, but seem okay with children. They don't pay any attention to the cat. These two littles could really use a new home so they can become settled again. They were in the same home for over 10 years and are now a bit confused. They are darling littles and truly need a loving person who will open their heart and their home to them. If you are interested in Noodle and Bitty please fill out an application at
