

Pixie came from a hoarding situation in TX. We think she's a Jack-Chi. She is learning how to live a normal life with structure, scheduled feedings and walkies. She loves other dogs but will require a female owner as she is a bit afraid of men. She just barks her little hoarse bark at them but will take food. She just needs time to warm up. Her new home will need to continue redirection training of her licking behavior but she's already greatly improved. Pixie is approximately 12 lbs. and 3 years old, but acts like a much younger dog. She's also cat friendly and potty trained when let out frequently so she'll need a doggie dog or owners who aren't gone long hours. She'd do fine with kids but does still jump up on people so probably no young toddlers. If interested in meeting Pixie, please complete our application at

www.lowridersofthewest.org

Pixie's adoption fee is \$325 - she is spayed, up to date on all her vaccinations and chipped. We require the application, home and reference check and meet and greet with current pets and/or children in the home. Pixie is being fostered in Littleton, CO.
