

Trixie is a sweet little, tiny 6 month old, 4 lb Chiweenie who has said goodbye to her former home and is now looking for a new one. She was rescued from right here in Colorado from a very not nice home nor a safe home. She is so happy to be out of her last situation and into foster care. She is very loving and very cuddly and loves bedtime the most. She can be a bit shy at first, but with love and treats she warms up quickly. Trixie would love to find a loving home, one that won't leave her outside in the cold, take her on lots of car rides and love her forever. She does not let her last home affect her at all, she is a very thankful puppy who shows it in everything she does. She would make a great companion dog who, with a little practice, will go everywhere with you. If you would like to meet Trixie please fill out an application at
