

Woody is a shy little 10# 2 y/o long haired Chi blend looking for a new forever home. He's a sweet boy whose family no longer wanted him. He's a little timid from being booted from the only home he knew but with some love and soft words and treats, he comes around quickly. He seeks human attention and likes sleeping in the big bed. Woody is a mellow guy and would do best with older respectful children or no kids in his new home. Woody likes other dogs and doesn't care about the cat in his foster home. However, Woody can be dog selective and may try to resource guard is person. His foster is working on this but he'll need an adopter who can work with him with some guidance of a trainer. Woody is neutered, utd on vaccs and chipped. If interested in meeting Woody, please complete our application at

www.lowridersofthewest.org

Woody's adoption fee is \$325.00. We require the application, home and reference check and meet and greet with current pets and/or children in the home.
